

MORENO CEDRONI

salt

> Hawaii black lava salt

Black lava sea salt, from Molokai Island, un uncontaminated paradise in the Hawaii Archipelago, is obtained through sea-water evaporation, by artisans' work made by inhabitants that during the drying process mix it with volcanic lava. The salt they obtained is black due to volcanic contamination and it is very rich in organic characteristics too.

RECOMMENDED WITH: SUITABLE FOR APPETIZER, ON A GLASS TO GARNISH A GIN LEMON OR SOMETHING LIKE THIS.

Net weight: 3.5 oz
